Personal Summary

MS KABIR

MS Kabir is a visionary entrepreneur and global strategist, widely recognized for his ability to build, scale, and lead multi-sector enterprises across finance, technology, education, logistics, consultancy, and beyond. With a dynamic business journey that began in 2001, he has consistently remained at the forefront of innovation, steering high-impact ventures that contribute to economic growth and global business transformation. As the Founder & Chairman of Quins Group LLC (Dubai), MS Kabir has developed a robust and diversified business ecosystem that seamlessly connects the United Kingdom, Dubai, and Bangladesh. Under his leadership, the Quins brand has expanded into a powerful network of companies that deliver excellence across industries.

Career Statement

MS KABIR

"My journey has always been guided by a singular belief: that entrepreneurship is not just about profit—it is about purpose. It is about creating systems that empower people, unlock potential, and build bridges across borders and barriers. From the inspection floors of Khulna to the boardrooms of London and Dubai, I have learned that sustainable success is born from integrity, innovation, and an unwavering commitment to service. Every company I build, every partnership I form, and every individual I mentor is part of a larger mission—to contribute meaningfully to the global economy while uplifting communities and preserving culture. Whether through finance, education, technology, or humanitarian work, I remain driven by the same principle that started my career in 2001: do work that matters. Lead with vision. Execute with precision. And always leave a legacy worth remembering."
